Registered Manager training (CQC) – Build Leadership Skills for Quality Care Services

Registered Manager training (CQC) is designed for current and aspiring care managers who want to lead safe, effective, and well-governed health and social care services across the UK. This comprehensive programme covers CQC standards, leadership, compliance, safeguarding, risk management, staff supervision, quality assurance, and effective service delivery. Learners gain practical knowledge to confidently manage residential care homes, supported living services, and domiciliary care settings while meeting regulatory expectations.

Flexible online learning allows you to study at your own pace without disrupting your professional commitments. The course is ideal for individuals seeking career progression, improved management skills, and greater confidence in preparing for CQC inspections. Expert tutor support and industry-relevant learning materials ensure you develop the skills needed to provide outstanding care and strong leadership.

Completing **Registered Manager training (CQC)** demonstrates your commitment to professional excellence and helps you build a successful career in the UK's adult health and social care sector.
